Southern Company

INFLUENCING SAFETY

How do you move safety through your organization? How do you get buy-in?
How do you get people to do what you want them to do regardless of the circumstances?

PROGRAM DESCRIPTION

Whether you are trying to reduce your number of recordables or prevent a good safety record from creating complacency, this entertaining, customized session is more than just a safe bet. It will get your people laughing, learning and motivated to create a culture of safety while maintaining productivity. This program focuses on developing the personal influence to make things stick, whether you're helping leaders move change through their locations or getting workers to look out for each other on the job site. Garrison is authentic – a guy who's been there. He's a chemical plant explosion survivor who has developed environmental safety products still in use worldwide. He expertly fuses his experiences into key takeaways such as how to build the trust and relationships that make consistent safety a reality. He delivers those takeaways using a humorous approach that will have serious impact on your event.

PROGRAM SEGMENTS INCLUDE

- How to clearly communicate the value of safety and get buy-in quickly
- Making sure you have good relationships around you so people will watch your back
- How to effectively hold people accountable for safety every day: What's actually working
- Avoiding mixed messages such as "You guys be safe, but hurry up!"
- How to create a culture of safety: Motivating people to make change work
- Office and home safety: 76,000 people are injured every year – by sitting in a chair!
- Driving safety: From texting to rolling stops (FYI, rolling is the opposite of being stopped)
- Safety leadership: People who feel valuable have statistically fewer incidents
- The key to target zero: Being present in the moment
- Influencing younger workers: We are our little brothers' and sisters' keepers
- Complacency: Don't let a good safety record cause an incident

Months after our general managers' meeting, I continue to get calls from our folks who were in attendance asking if we can get Garrison Wynn to come back. Garrison's message, combined with his unique, upbeat and entertaining delivery, was the perfect combination to reach every person in that room. **OXY**

WHY CHOOSE GARRISON?

Garrison has presented to some of the world's most effective leaders, safety professionals and business developers, from multibillion-dollar manufacturers to national associations. He has a background in manufacturing, industrial instrumentation and finance and has toured as a professional stand-up comedian. In his teens, Garrison worked with Magnavox and baseball legend Hank Aaron to promote the world's first video gaming system, and by age 27 he became the youngest department head in a Fortune 500 company's history. **He is a chemical plant explosion survivor, has researched and designed processes for 38 locations nationwide and has developed safety products still being sold in 30 countries.** He is the author of the Amazon.com bestseller *The REAL Truth about Success*, has contributed weekly to *The Washington Post* and has coauthored with Stephen Covey. His award-winning success tools receive high praise, but his greatest strength is a magnetic live performance that keeps him in high demand, with more than 600 inquiries and 100 speaking dates per year.

CLIENT TESTIMONIALS

We asked Garrison to customize a one-hour safety keynote for the 22 events we scheduled. He got rave reviews (at all 22 events) and covered the specifics we needed for our people. These presentations were highly effective, entertaining and exceeded our expectations. He was referred to us by another subsidiary of our parent company, Southern Company, and we really appreciate their recommendation. **Alabama Power**

When asked what their favorite session was, audiences in the United States, The Netherlands, and Nigeria gave your session the most votes — hands down! None of the other sessions came even close! **Royal Dutch Shell**

Garrison did a fantastic job and connected well with our audience. I received multiple comments from attendees who found Garrison not only entertaining but informative and insightful as well. **Rio Tinto Minerals - Boron Operations**

Thank you for speaking to Shell Exploration & Production Company about safety. I've had many people, including our Leadership Team, compliment the presentation for its strong message about safety while maintaining a high entertainment value. We're looking forward to a return engagement. **Shell**

The response to your presentations has been overwhelmingly positive. I continue to receive comments and e-mails from all areas about how much they enjoyed your message. Without a doubt, the most powerful and entertaining safety presentations we have ever experienced! **Southern Company**

I just wanted to thank you again for the fine job you did communicating the importance of safety here at Lake Charles. You were excellent. I have heard numerous comments from attendees on how much they enjoyed it. PPG looks forward to continued work with you in the future. **PPG**

We appreciated your preparation and planning to deliver the goods that we had expected and discussed. The presentations were engaging, entertaining, motivational and balanced with good substance for takeaway utilization. Both safety awareness presentations supported our conference theme centered on the delivery of results. **Shell Oil Products US**

Garrison was funny, very knowledgeable about safety, well prepared and articulate - and most importantly, he held the audience's attention. Our members gave him outstanding reviews. **National Lime Association**
